

### PROCESS

FEECO designed and manufactured 11 centrifugal-style [bucket elevators](#) for a frac sand processing plant in Chippewa Falls, WI.

Capacities of the various elevators were 10 TPH, 250 TPH, and 500 TPH of sand. The 500 TPH units were equipped with dual 50 HP (37kW) shaft mount drives.

Discharge height of elevators ranged from 50' (15m) to 96' (29m).
