

### PROCESS

FEECO designed and manufactured a 100' (30.5m) elevated [belt conveyor](#) and 20' x 20' (6 x 6m) receiving hopper to bring potash to the top of a storage building.

FEECO also supplied a [belt tripper](#) that runs on rails at the top entrance of the storage building in order to distribute the potash.

### PROJECT SPECS

**Customer:**

Dock Storage

**Equipment Supplied:**

Belt Conveyors:

- 228' 0" (69.5m ) Long x 54" (1.4m) Wide
- 610' 0" (186m) Long x 54" (1.4m) Wide
- 36' 0" (11m) Long x 36" (0.9m) Wide

Belt Tripper

20' x 20' (6 x 6m) Receiving Hopper

**Project Location:**

Toledo, Ohio, USA

**Industry:**

Fertilizer

**Material:**

Potash

**Project Engineer:**

FEECO International, Inc.
